

# Dry Pipe Valve, Vertical Trim Latched-Clapper Type Grooved Ends, 300PSI

## **Specifications**

- The Valve controls the water supply entry into the Pre-Action system piping and sprinklers. The system is normally supervised with pressurized air or nitrogen in order to detect any leaks in the system. Valve allows the water to operate a water motor alarm and/or electric pressure alarms, which continue until the flow of water stops. Groove to Metric or AWWA C606 standard.
- Valve must be installed in vertical position with the trim as shown.
- Groove to Metric or AWWA C606 standard.

### **Working Pressure**

- 300 PSI.
- 200 PSI and 250 PSI available on request.

### Working Temperature

- 0°C to 68°C for electrical signals.
- 4.4°C to 68°C for wet lead nozzle pipe.

### **Corrosion Protection**

• Internally and externally spray epoxy painted RAL3000.
